Date:

The diagram consists of a single horizontal line on the left side. This line extends to the right and then splits into two vertical lines. Each of these vertical lines extends to the right and then splits into two horizontal lines. Each of these four horizontal lines then splits into two more horizontal lines, resulting in a total of 16 horizontal lines on the right side of the page. These lines are arranged in a tree-like structure, with the top two horizontal lines on the right being the highest, followed by the next two, and so on, down to the bottom two horizontal lines.
